Human-AI (or AI agent) interaction, human-machine communication, algorithmic mediation and trust, AI in media and communication, multimodal communication, sociotechnical dimensions of AI adoption, AI ethics, artificial society, and critical perspectives on AI in society.

The successful candidate will become part of an innovative, interdisciplinary faculty and contribute meaningfully to our teaching, research, and service objectives. This role offers the opportunity to influence the critical discourse surrounding AI technologies and their intersection with human communication practices, cultural contexts, and institutional frameworks.

Required Qualifications: PhD in Communication, Media Studies, Human-Computer Interaction, Science & Technology Studies, Information Science, or closely related discipline.

Join us in advancing the field at the intersection of artificial intelligence and human communication in one of Asia's premier academic environments.

Emoluments

Salary will be competitive and commensurate with qualifications and experience. The University offers a comprehensive fringe benefit package.
